Annual Subscription Rates (1981)

For Libraries, University Departments, Government Laboratories, Industrial and all other multiple-reader institutions US $220.00 per annum (including postage and insurance), 2-year subscription rate $418.00.
Specially reduced rates for individuals: In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure. Individuals, whose institution takes out a library subscription, may purchase a second or additional subscription for their personal use at the much reduced rate of US $45.00 per annum.
For members of BIBRA £10.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Aims and Scope

The Journal provides a wide-ranging service of general articles and abstracts on food and cosmetics toxicology. The Journal is primarily intended for the use of food scientists and technologists, manufacturers and administrators who neither read nor have access to the medical, pharmacological or toxicological literature. In addition, the journal will constitute a medium for the publication of reviews and original articles relating to the fields of interest covered by the British Industrial Biological Research Association.

Some other Pergamon Journals which may interest readers of *Food and Cosmetics Toxicology:*

Annals of Occupational Hygiene

Archives of Oral Biology

Atmospheric Environment

Biochemical Pharmacology

Chronic Diseases

European Journal of Cancer

Health Physics

Journal of Aerosol Science
